Biologic Markers in Reproductp Biologic Markers in Reproductp by National Research Council

National Research Council

Does publicity to environmental toxicants inhibit our skill to have fit young ones who improve normally? Biologic markers--indicators which could let us know whilst environmental elements have brought on a metamorphosis on the mobile or biochemical point that would have an effect on reproductive ability--are a promising instrument for examine geared toward answering that vital question. Biologic Markers in Reproductive Toxicology examines the possibility of those markers in environmental overall healthiness studies; clarifies definitions, underlying concepts, and attainable applications; and indicates the advantages to be won from their use in reproductive and neurodevelopmental research.
