This sequence is awful. indexed on CBD as for a while 5-10, and Amazon as Brother Andrew: Taking Bibles to the World (Heroes for Young Readers) four and up, yet this designation is totally off, if now not even arbitrary. i might suggest those books, maybe, for preschool. For a few reason, they made up our minds to exploit rhyming verse, a literary type that drastically appeals to the preschool set. yet in that format, the intense themes of Brother Andrew: Taking Bibles to the World (Heroes for Young Readers) missions, paganism, and the war of words among mild and darkness are addressed. this is often every little thing I hate approximately cheery "christian" literature. A sing-song, happy-happy-clap-clap method of the very actual battle of the a long time is infuriatingly beside the point in getting ready our kids to face for the LORD. If this type of God won't ever permit whatever uncomfortable take place to you candy baby theology is what you're looking for, Meloche's paintings will fit you fine. but when you're looking to elevate up godly youngsters who're outfitted to know, love and serve the amazing, awesome, inventive God, do your self a favor: do not buy any books during this series. Excellent alternatives, which i've got reviewed on Goodreads are: Christian Biographies for younger Readers (Series), Simonetta Carr Trial & Tribulation (A unmarried publication evaluation of Church History), Hannula History Lives sequence by way of Brandon & Mindy Withrow
