Las formas actuales de los angeles arquitectura y el urbanismo muestran las arbitrariedades que siempre han marcado los angeles historia humana. Los rascacielos, los centros administrativos, las áreas comerciales y las autopistas elevadas sobresalen con su esplendor entre barrios de miseria y subproductos de los angeles urbanización salvaje. Se producen así estratos de formas de vida y de usos de los espacios que son comparables con los estratos de escombros y monumentos del pasado. ¿Qué nos dicen sobre el tiempo y los angeles historia? los angeles contemplación de estas ruinas, precisamente en su azaroso desorden, puede hacernos percibir un tiempo en estado puro, un tiempo que no resume ni completa l. a. historia. El autor evoca imágenes y prácticas del mundo hipermoderno, lo mismo que de poblados indígenas, donde señala las formas de recuperar el tiempo, ya sea con los angeles exhibición de l. a. memoria well known en danzas y rituales, o con los angeles restauración de castillos y palacios que sirven como puro espectáculo. los angeles historia futura no dejará ruinas, pero sí escombros. El tiempo en ruinas Éstos tal vez se convertirán en canteras que nos darán los angeles oportunidad de reconstruir el sentido del tiempo y, más allá de éste, l. a. conciencia de l. a. historia.

Cosa c' di cos El tiempo en ruinas prezioso e affascinante nelle rovine? il senso del pace come "coscienza della mancanza, espressione dell'assenza, puro desiderio". Un pace senza los angeles El tiempo en ruinas storia, proprio perch le rovine non sono espressione di un momento storico ben preciso, ma El tiempo en ruinas coniugano paesaggio, natura, sguardo.
