And then he observed a excessive rock, correct at the very fringe of the moon, and on best of this rock there has been a tall church, and on best of this church there has been a slim steeple, and away up - correct on the very best of this steeple - there has been sitting a truly very very very very very previous guy with little eco-friendly eyes and an incredible white beard and mild palms like a doll's hands. (pg. 18) Love is the main renowned subject that permeates the fairy tales. Or the pursuit of affection (in "The Little woman Named I"). the affection in query is especially innocent, very unassuming, as one might count on from tales written for children. the affection Cummings writes approximately is for that reason now not the affection among people, however the love among an elephant and a butterfly (in "The Elephant and the Butterfly") or the affection among a home and a fowl (in "The apartment That Ate Mosquito Pie")... So they got here jointly and the elephant's arm was once very lightly round the butterfly. Then the littlest tree said: "I think the butterfly loves the elephant up to the elephant loves the butterfly, and that makes me very happy, for they're going to love one another always." (pg. 33) The tale that's so much evocative of Cummings's poetry is "The Little woman Named I"... as soon as upon a time there has been a bit lady named I. She was once an excellent little girl, wasn't she? sure indeed; very good. So someday this little lady named i used to be strolling all by way of herself in a eco-friendly eco-friendly field. Does it say "Nicely, thanks very much"? Yes. It does. And so this little woman named I is especially glad, and he or she invitations this cow to return to tea, yet this cow does not Fairy Tales like tea. So then they are saying "Goodbye" and away is going I in the course of the eco-friendly eco-friendly field, all by means of herself. (pg. fifty one - 52)
