it truly is Christmas in Oxford while Stefano de Askeles brings his troupe of jongleurs to town. issues haven't been going good for him - terrible Gyles de Multon used to be killed on degree in Winchester, and Stefano's pawing of Margaret the Falconer and the Face of God (William Falconer #3) tumbler has her husband wild with jealousy. yet with a brand new venue to play, they're hopeful that issues will improve. grasp William Falconer, meanwhile, has been scouring the again alleys of Oxford looking for an alchemist who may also help his exiled mentor, Roger Bacon, together with his research. hence it truly is that he witnesses the ultimate practice session of de Askeles's play - and the dying of an unlucky stand-in. apparently somebody desires de Askeles useless and Falconer is the one person who can keep him.

What an ideal strategy to study extra in regards to the Medieval England! This old secret set in Oxford within the 1200's offers the reader a crash path on Oxford college in its early days (NOT impressive!); the early Church (less than holy in lots of ways); and the rampant anti-Semitism Falconer and the Face of God (William Falconer #3) commonplace at that time. The roving theatrical troupe on the middle of the tale is colourful and Ian Morson creates a really plausible solid of Falconer and the Face of God (William Falconer #3) characters to counterpoint them. The secret used to be a reputable puzzle if you learn for the problem of fixing the crime, however the magic for me was once imagining the complicated theatricals awarded by means of the rag-tag vacationing group. This booklet was once a very good break out into one other world--brutal, challenging, and particularly interesting.
