## Mano de hierro (Stoneheart Trilogy #2)

Charlie Fletcher

Edie y el Artillero, l. a. estatua de un soldado de l. a. Primera Guerra Mundial, han sido capturados por el Caminante. George ha de rescatarlos, pero primero debe ocuparse de unas extrañas venas, hecas de mármos, bronce y piedra, que han aparecido en su muñeca y que avanzan lentamente por su antebrazo. Cuenta l. a. leyenda que las venas irán avanzando por su cuerpo hasta llegar a perforar su corazón a no ser que supere tres graves desafíos... el tiempo corre en su contra y tanto Edie como el Artillero están en un grave peligro.

Tuve Mano de hierro (Stoneheart Trilogy #2) que esperar cerca de un año para hacerme con una Mano de hierro (Stoneheart Trilogy #2) copia del libro, pero como dicen: l. a. espera vale los angeles pena, y Mano de Hierro es un claro ejemplo. El libro comienza con dos páginas describiendo l. a. historia hasta el momento, un punto a desire del libro, para luego pasar a l. a. parte donde el Caminante arrastra al Artillero y así comenzar los angeles aventura. George y Edie deciden emprender l. a. búsqueda de su amigo y protector, el Artillero, pero en el camino se separan, Edie siendo secuestrada por Ícaro, una mácula al servicio del Caminante, mientras George emprende l. a. travesía de cumplir con tres desafíos para no convertirse en un Siervo de los angeles Piedra, los tres desafíos están representados por tres vetas: bronce, mármol y piedra caliza. Entre una cosa y Mano de hierro (Stoneheart Trilogy #2) otra, George se reúne con el Artillero y ambos van en busca de Edie, quien se encuentra atrapada en el pasado; al rescatar a l. a. chica George nota que algo los siguió pero no está seguro de que es. De nuevo Charlie Fletcher nos deja en suspenso con un ultimate abierto, lo bueno es que todos los cabos sueltos se resuelven en l. a. siguiente y última entrega (Lengua de Mano de hierro (Stoneheart Trilogy #2) Plata). Nos presenta nuevas máculas y vitratos, un encanto l. a. mayoría, salvo por Ariel e Ícaro, además de que convierte en aliado a cierta mácula que intento matar a George en el primer libro, espero adivinen cual. Entre las nuevas máculas se encuentra Ícaro, el hermano del Minotauro derrotado en l. a. pasada entrega, un monumento a los angeles agonía con un par de lamentably cortadas atadas por un arnés que parecía más un instrumento de tortura, a su espalda desnuda cuyo torso se encontraba encerrado en un especie de enrejado. El Toro hace su aparición, un toro enorme de aspecto asesino con una mujer desnuda atada al lomo, no creo que haya que hacer una mayor descripción de esta mácula y su accionar, más que nada porque el título del capítulo de su primera aparición es: El Toro Asesino. Entre los nuevos vitratos destacan por su acción, l. a. Reina, una mujer majestuosa con una sencilla túnica que lleva una sencilla corona, siempre arriba de su carro empuñando en una mano los angeles lanza y en los angeles otra las riendas de sus corceles. El Oficial, perteneciente al monumento a los caídos al igual que el Artillero. La forma de escribir sigue siendo igual de fluida además que l. a. descripción de los lugares y los pensamientos de los personajes está tan bien creada que se te hace fácil entrar en los angeles historia y empezar a sentir como si estuvieran presenciándola de Mano de hierro (Stoneheart Trilogy #2) primera mano. Si quedaste con duda acerca del por qué del título de Corazón de Piedra, en esta nueva entrega te lo resuelven en un capítulo completo, claro que te forman nuevas preguntas que, de una forma u otra, se resuelven en Lengua de Plata. Al igual que en Corazón de Piedra mi ejemplar tiene el sello de Próximamente en Cines, pero no he (y creo que nunca tendré) noticias sobre l. a. película, es

una pena porque tiene gran fabric para ser una gran película, igual o mejor que los angeles saga de Harry Potter.
