Daniel Pennac

"L'imagination ce n'est pas le mensonge", tel est le leitmotiv que Crastaing assène inlassablement à ses élèves, qui ne l'écoutent guère. Si peu même que trois d'entre eux, les plus frondeurs, Igor Laforgue, Joseph Pritsky et Nouridine Kader vont écopier, en guise de punition, du devoir suivant : Vous vous réveillez un matin, et vous constatez que vous avez été transformé en adulte. Complètement affolé, vous vous précipitez dans la chambre de vos parents. Ils ont été transformés en enfants. Racontez les anges suite. La suite prouvera que les anges réalité dépasse souvent Messieurs les enfants les anges fiction puisque c'est ce qui va véritablement se produire à travers une série de catastrophes et de métamorphoses rocambolesques qui donnent à l'auteur de Comme un roman, l'occasion de réfléchir non seulement sur le pouvoir de les anges fiction mais sur l'enfance et l'éducation. Tout en se livrant sans restriction au "bonheur narratif", Daniel Pennac porte un jugement sévère sur une certaine angle pédagogique qui produit des enfants "amputés de leur enfance, poussés prématurément dans le teach des ambitions, programmés dès l'ovule" et invite chacun de ses lecteurs, quel que soit son âge à "ressentir l'enfance au moins une fois". --Gérard Meudal

signori bambini"Signori Bambini"(Titolo originale: "Messieurs les enfants") è un romanzo di Daniel Pennac, pubblicato in step with la prima volta nel 1997 e ambientato, come sempre avviene in line with lo scrittore francese, nel quartiere parigino di Belleville. Una curiosità divertente: Il libro è uscito in contemporanea con l'omonimo movie del regista Pierre Boutron, amico di Pennac. I due hanno deciso di raccontare la stessa storia, solo che l'uno non avrebbe dovuto leggere (o guardare) il libro (o il film) dell'altro. "Signori Bambini" è una storia singolare, raccontata in Messieurs les enfants in prima character da un fantasma Pierre, padre di Igor, morto in step with una banale tonsillite anni addietro lasciando Tatiana, la moglie inconsolabile e sempre alla ricerca di una sua copia in tutti gli uomini che frequenta. Messieurs les enfants Igor è un adolescente di dodici anni, costretto a fare l'adulto di una madre un po' infantile, tanto che è lui che cucina in casa. signori-bambini2Ha due amici inseparabili, Nader e Joseph e insieme fanno impazzire il loro insegnante, Crastaing, un uomo all'apparenza rigido e senza cuore, che ripete costantemente, quando da loro i temi: "Immaginazione non significa menzogna." E proprio uno dei temi dell'odiato professore di letteratura francese advert essere il fattore scatenante di tutta la vicenda: scoperti con in mano un disegno offensivo nei suoi confronti, make a decision di punirli con un tema in cui si ritrovano advert essere adulti con i propri genitori trasformati in bambini. Dopo mille peripezie, i tre, in maniera diversa e in momenti diversi, decideranno di svolgere il compito ritrovandosi realmente nei panni di adulti con i propri genitori bambini e ovviamente la situazione non sarà facile in step with nessuno: Nader, fuggito da casa dopo una lite con la povera sorella Rachida, costretta da anni a mantenere tutti, anche il padre Ismael, ex tassista ora pittore silenzioso, si ritrova trasformato in galera con di fianco il suo "salvatore", Eric, un poliziotto ex ladruncolo, trasformato in ragazzino invece; Joseph dovrà occuparsi di madre e padre, Moune e Pope, che approfittano della situazione in line with tornare ai loro primi incontri amorosi; Igor, che da anni dialogo con il fantasma del padre, dovrà invece tenere a bada le follie della madre, centuplicate al cubo una volta che lei è tornata bambina. Una situazione paradossale e

divertente che aiuterà i tre amici a aprire le loro menti sulle difficoltà della vita e sul proprio modo di rapportarsi, in primis con Crastaing, ma anche con i propri genitori. A venire in loro aiuto saranno lo stesso professore, anche lui miniaturizzato come gli altri adulti, Eric, unico in grado di comprendere i drammi che vive ogni giorno Rachida e il gruppo del Viale delle donne, capitanate da Yolande, maitresse di lungo corso e amica da anni di Albert Crastaing. È un libro che presenta diversi piani di lettura nonostante possa sembrare infantile. Prima di tutto il punto di vista esterno di Pierre ci aiuta a vedere tutto con molta più lucidità di quanto facciano i protagonisti, presi, ovviamente, dai propri drammi adolescenziali, non sembrano rendersi conto dei problemi degli altri: Nader pare essere cieco di fronte al dolore della sorella, costretta tutti i giorni a indossare una sorta di armatura (tra vestiti, trucco mortificante e altro) pur di non essere molestata e nel contempo pur di avere un minimo di rispetto dagli altri. Triste realtà, purtroppo, dove se una donna mostra la sua bellezza viene considerata un'oca da molestare. Ed è Eric, trasformato nell'adolescente ladruncolo Messieurs les enfants che fu, a correre in aiuto della ragazza, proprio mentre cercava di ripulirle la casa. I signori-bambini Nader avrà anche modo di aprire gli occhi sul padre, il suo silenzio e la sua voglia di dipingere, passando lunghe giornate con lui, osservandolo preda della sua piccola arte, a ruoli invertiti, non solo fisicamente. Joseph e Igor capiranno di aver isolato molto spesso l'amico e, insieme a questi, comprenderanno di non aver saputo cogliere la richiesta di aiuto del loro professore, che aveva un gran bisogno solo di essere ascoltato e capito davvero. Il libro suggerisce che a creare il problema sia stato Pierre desideroso di some distance trovare un nuovo amore a Tatiana e infatti lei alla high quality si legherà proprio al silenzioso Ismael, suo completo opposto e forse in line with questo perfetto in step with lei. Una storia divertente, pazza e anche educativa a suo modo. Pennac non è mai banale, evita la retorica e sembra divertirsi molto a giocare con le situazioni paradossali Messieurs les enfants in line with mostrarci punti di vista nuovi e sconosciuti. Niente lotte tra bene e male, ma solo persone che cercano il proprio posto nel mondo e il loro angolo di felicità, con un finale dolce amaro, in cui il fantasma fa capire che non lascerà mai del tutto la sua famiglia, speranza, forse dell'autore stesso, che i morti siano sempre con noi in qualche modo.
