How used to be Emerald/Shiesty gonna come again at greenback and Sissy? it truly Money Over Men: When a Good Girl Turns Shiesty is approximately to be on! unlock date acquired driven again yet i used to be nonetheless anxiously ready on Nichelle to do her thing. And that brings us to right here and now... clean out of jail, with a brand new sidekick, Emerald aka Shiesty is prepared for a few get back. Her sister and guy left her for lifeless and he or she plans to cause them to want they were. Laced with the flyest clothes, limitless funds, and Money Over Men: When a Good Girl Turns Shiesty a brand new motto: "Money Over Men," those who wronged her do not know what they've got gotten themselves into. cash OVER males is a booklet approximately not anything and everything. it is a tale approximately judgements - regularly undesirable ones - and revenge. to assert i used to be disenchanting is an understatement. mammoth on intercourse and intensely little on substance, cash OVER males falls method in need of this reader's expectations. The modifying was once ridiculous. The plot meanders generally with repeated, repeated, repeated, repeated, repeated (you get my point???) references to the standard of Emerald's sex. That besides the consistent reiteration that she, Emerald/Shiesty, used to be a chairman b*tch was once over 1/2 the book. It was once overkill and triggered the booklet to spin out of control, no longer getting again on target till the very end. And it really is that finishing that's the top part. It got here fast and was once a bit too tidy. i do not comprehend WHAT occurred with this sequel. Unfortunately, i might have virtually most popular that it had now not been written. outlined Money Over Men: When a Good Girl Turns Shiesty by means of repetition, undesirable enhancing and little to no substance, i cannot suggest this sequel. Nichelle displayed her expertise and wit in DOING HIS TIME. i am hoping it resurfaces for her subsequent book, secrets and techniques AND LIES.
