Naruto vol. 34 Summary: Naruto is a ninja-in-training with an incorrigible knack for mischief. He has obtained a wild experience of humor, Naruto, Vol. 34: The Reunion (Naruto #34) yet Naruto is totally interested by his project to be the world's maximum ninja! THE REUNION Naruto eventually unearths Sasuke! yet Sasuke will not go back to Konoha without a fight. This time it could actually take all of group Kakashi to Naruto, Vol. 34: The Reunion (Naruto #34) deliver him down - and convey him back. MY OPINION Perhaps Sai's no longer as monstrous a jerk as I initially thought... \*Cough\* because the gang achieve Orochimaru's hideout, they locate and query Sai to benefit the main points of the project that experience Naruto, Vol. 34: The Reunion (Naruto #34) made him betray them. He finds that Danzo desires to work force up with Orochimaru to convey down Konoha as they are aware of it in order that he can rebuild it the best way he wishes Naruto, Vol. 34: The Reunion (Naruto #34) it to be. but if he and Naruto have heated phrases over Sasuke, the ice that likely surrounds Sai's middle melts a bit. Naruto and Sasuke proportion a powerful bond, person who can't be broken. Sai's enthusiastic about this bond, and approximately Naruto, who acts like and reminds him a lot of his pricey brother who fell in poor health and died. Perhaps, humans can change, together with Sai himself. And so he rejoins the group and is helping look for Sasuke, but if it's found that Sasuke is in his Bingo e-book (a e-book of ninja who're a danger to their village) the remaining needs to wonder whether Sai was once real approximately eager to change, or if he was once easily donning one other pretend smile. And the gang eventually comes head to head with Sasuke...Quote: "But I am performed following orders. From now on, I need to imagine for myself."
