## Owned and Owner by Anneke Jacob

Anneke Jacob

BDSM erotica. writer of *As She's Told*, winner of the nationwide leather-based Association, 2008 Pauline Reage Novel Award. Far sooner or later exists a global of men, a planet the place the single ladies are infrequent and unique pets. those few women, convicted of crimes, have selected their punishment: slavery on Henth. The few males who purchase them understand what they're getting: keen submissives, keen to simply accept the prestige of animals with a view to be owned via men. Etrin is a tender girl who makes this choice; Garid is the guy who buys her. lengthy ahead of the time of the book, Henth's colonizers break up alongside gender lines, and the ladies got rid of themselves to a separate planet. the 2 societies have nearly misplaced sight and reminiscence of every other, aside from the infrequent events whilst a lady chooses slavery on Owned and Owner Henth over the choice punishment on her domestic planet. pushed by means of a deep desire for submission, Etrin pushes her misbehaviour yr after year, realizing that she'll ultimately be despatched to Henth. When ultimately convicted and sentenced for her crimes, the sure Etrin is beaten by way of her first touch with the boys on the earth Henth. as soon as Garid purchases his new pet, Etrin is going via phases of reputation and the relinquishment of self as she faces the stern calls for required of her. Graphic sexual content.

\*\*\*Holy-shit-I-don't-know-how-to-rate-this-book stars\*\*\*Review accomplished on December 10th. Okay, I finally made up my brain at the rating. four stars. I have not thought of this publication till Christine requested me to discover her a really 'special' ebook :-D. Owned and Owner This one is 'special' alright. I imagine the explanation why i used to be suffering to cost this book, used to be simply because i used to be having a troublesome time wrapping my head round the universe that the writer created. additionally as the feminist in me stored punching me within the face. it is needed to imagine and kind whereas being hit time and again through your internal goddess (:-S) :-D. It's a really diversified tackle M/s relationship. i do not recognize if you happen to may well name it that though. courting could indicate that there are prepared (-ish) participants. And on the beginning, there are. the tale starts with a woman, a criminal, that has to make a decision: rehabilitation, exile or slavery on Henth. She weighs every one choice and comes to a decision at the 3rd one, since it feels like an adventure. Little did she know... She will get transported onto the planet governed via men. here's the place the feminist in me begun kicking me within the balls :-). the bizarre factor approximately it was once that their society used to be so believable, and never faraway from the area we are living in. lengthy tale short: they do not want girls to exist. males are the very best race. they just use girls as pets, and never those that glance great on their arm, that simply smile and nod, or maybe sexual play things. they're there for an leisure price only. She quickly figures it out that this Owned and Owner complete deal is greater than she bargained for. yet via then, it really is too late. The so known as hero of this story, is particularly hard/impossible to like, comprehend or relate to. the unusual factor approximately it really is that he's difficult to hate, too. He's lived through these principles all his life, he does not be Owned and Owner aware of any different. His buddies are stunned that he is obtained himself a slave for sex. Why do you want a slave whereas there are such a lot of attractive males who can look after you simply as well, or larger :)? As for our

'heroine'; she's now not as powerful as she seemed to be, at first. even supposing she might be visible as such, simply because she'd long past although all 'that', yet she will additionally come upon as a girl who may be simply manipulated. He does placed her feelings via a ringer and f@cks together with her brain like nobodies enterprise :). So...I gave it four stars simply because i needed for a greater rationalization on why she selected the 3rd option. the start was once too rushed. I additionally desired to be aware of a bit extra concerning the global she lived in. But overall, it used to be a truly interesting story. i have by no means learn something like it. And to elucidate one thing: it is not a love story. There are feeling involved, yet now not those I (personally) could go along with love or romance.-----I learn it few moths again and that i concept probably if I wait it is going to come to me and i'm going to have whatever to say, however it by no means came, so i'm going to simply go away it like that :-). It wasn't a DNF, I learn the whole lot in a single sitting, with my jaw placing out, and the tale was once so weird and wonderful that it left me speechless :-S. now not in a nasty manner though. Oh, and that i imagine that the canopy is especially distasteful and a bit of misleading. the writer can have get a hold of whatever extra inventive than that.
