# Print and Electronic Text Convergence

Margaret Land

With the innovative digitisation Print and Electronic Text Convergence of the ebook construction processes, we see the emergence of a in all probability powerful mixture of new technologies. no longer Print and Electronic Text Convergence effective simply because those applied sciences are able to using switch alones, yet effective for the economic and cultural drivers that may paintings in live performance with new applied sciences to remodel the area of books and reading. imperative to those technological advancements is the convergence of the applied sciences of etext and electronic print. This ebook Print and Electronic Text Convergence examines contemporary technological alterations in ebook production. Our concentration is partially on technological actuality, targeted totally on the digitisation of textual content and its consequences. Our concentration is usually at the realm of possibility. the place may possibly those technological shifts lead us? What are the industrial and cultural stipulations below which technological chance could endure fruits? inside of this quantity we glance particularly on the altering definition of a 'book'. A ebook is not any longer a tangible thing; a booklet is what a publication does. it truly is details architecture. We research a number of the manifestations of digital publication readers and drawing close technologies, comparable to digital ink, together with case research at the use of e-book interpreting units through a lending library, and speculate approximately different makes use of of such devices. We see the convergence of print and etext - manifestations of an identical factor - electronically kept text, with the adaptation established in basic terms within the shift in frame of mind essential to accommodate emergent types of electronic textual content - as info providers inside a product-service system, the altering form of electronic layout and alterations in printing applied sciences from letterpress to the increase of electronic printing.

## Print And Electronic Text Convergence
