5 children with 5 targeted skills -- Regeneration (Regeneration #1) all genetically engineered. they are not simply try out Regeneration (Regeneration #1) subjects, they're clones. and they are at the run from the scientist who created them...

Varina lever vad som skulle kunna kallas ett normalt liv. Hennes föräldrar är visserligen döda, males hon får ju bo med sin morbror Jim. Och sen har hon ju inga släktingar, males det är väl inget misstänkt med det. Och att hon alltid känner sig annorlunda sina jämnåriga vänner, ja, vilken tonåring känner inte så? males Varinas normala liv slås i spillror när hon möter Chase, den mystiska främlingen som påstår att han känner until saker om hennes födelse, och att hon befinner sig i livsfara. Varina vill inte tro honom. males har hon något val? Jag läste Klonad-serien av L.J. Singelton första gången för många, många år sedan, på den tiden när jag tyckte att en bok på nästan two hundred sidor var lång. Redan då älskade jag den här serien, och ni kanske minns det här fasansfulla inlägget om den femte och sista boken som aldrig översattes. Nu när jag vet att den finns har jag (med ingen mindre än författarens hjälp) lyckats få tag på den sista boken, males såklart på engelska. Eftersom det var så länge sedan jag läste den här serien så bestämde jag mig för att läsa om alltihopa, och nu äntligen få ett riktigt slut på det hela. Jag borde egentligen inte ha skrivit bokens titel, för den spoiler ungefär halva boken, males guy borde faktiskt kunna läsa bokens titel utan att bli spoilerad. Hur som helst så förstår ni säkert ungefär vad den handlar om, och jag är fortfarande omåttligt förtjust i hela historien. Det är spännande från början until slut, och trots att vissa aspekter av boken kanske känns lite väl otroliga så lyckas Singelton dölja det riktigt bra och guy tänker inte så mycket på det. guy jag råder er ändå att inte försöka tänka för mycket om ni läser den här boken. Det finns dock en scen som känns lite skrattretande, när de mitt i en livsfarlig biljakt samtidigt diskuterar utbildning och föräldrar...Jag gillar huvudpersonen, Varina, även om hon kan vara lite barnslig och omogen ibland. males den här omogna sidan gör henne också lite mer mänsklig och until eventually en djupare karaktär, och Regeneration (Regeneration #1) i de flesta fallen tycker jag att hon agerar tillräckligt shrewdpermanent och Regeneration (Regeneration #1) modigt (men hon är definitivt lite väl avundsjuk av sig). Chase är en av mina all-time-favorites bland manliga karaktärer. Jag vet inte riktigt vad det är, males jag älskar honom. Han är snäll males samtidigt tuff, lugn males samtidigt farlig. Som Varina uttrycker det, han är mörk males samtidigt ljus. Dessutom är han snygg. Om det inte vore för att jag hade så fina minnen Regeneration (Regeneration #1) av den här boken så hade den nog inte fått ett så högt betyg, och om jag läst den första gången idag så hade jag nog tyckt att den var lite väl barnslig. males nu är jag ju inte åtta längre.
