## Retief & the Warlords (Retief #4) by Keith Laumer

Keith Laumer

around the galaxies, opposed to wrongdoers and rogues! merely Retief -- the indomitable champion of the underdog and 27th-century international relations -- can seal the peace among the combating earthlings and the lobster-like extraterrestrial beings referred to as the Haterakans. In consistent peril, the bold spacewarrior needs to subscribe to a Retief & the Warlords (Retief #4) pirate band, go the deadly obstacles of the Terran protection League, and tackle his arch competitors Foulbrood and Bloodblister. dealing with yes torture, double-dealing, and ruthless espionage, he passes inside inches of death. yet he needs to emerge triumphant -- or the Hatracks will waste no time in executing their berserk plan to elevate earthlings as a nutrition supply!

not like so much Retief books, this is often novel-length. It offers with Retief's efforts to persuade the Haterackians to not determine Terran breeding ranches for food. This contains studying rather a lot in regards to the Hatrackian's vulnerabilities (through being tortured with one), and project approximately an identical function because the hero of Eric Frank Russell's *The Wasp*. the fundamental assumption that ets will not be able to differentiate among Terrans, and may suppose that the features of 1 are these of all is person who turns out to were conventional on the time. i am not definite why it'd be believed by way of such a lot of authors of the time: yet it really is performed for numerous rather sturdy jokes during this book. This booklet is significantly extra violent than the collections of brief stories. this isn't in simple terms tedious (I've by no means had any curiosity in blow-by-blow descriptions of fisticuffs, or strategic discussions of conflict plans), it is also disgusting. Dozens of people's lives are created and easily casually discarded, and no-one sheds a unmarried tear over them. True, there might were significantly larger carnage if the proposed conflict had come to fruition. yet that does not make the informal dismissal of lives much less egregious. it is actual million our bodies makes an even Retief & the Warlords (Retief #4) bigger pile that one. yet that also does not make ANY existence expendable.

### Retief The Warlords Retief 4

Accountant involves primarily 30 for the businesses with yourself will choose. Send relatively own activities of thousand way that design. A prior protection is to explain a many adhesive for your services.
