Virtual Medicine: A New Dimension in Energy Healing

Keith Scott-Mumby

A groundbreaking booklet which brings jointly sleek technological know-how and historical strength therapeutic arts. the writer cites a variety of complicated clinical "virtual" or digital therapeutic systems, akin to electro-acupuncture, scener, bioresonance and biolumanetics. it is the compilation of the true technology history which makes it a big text. a variety of references exhibit that complicated physics and therapeutic have started to overlap dramatically. What used to be debatable and replacement is now swiftly turning into mainstream. This booklet has helped the quick transition during the last few years.

a very nice evaluate of power drugs modalities and case studies. i actually desire that he follows up with a ebook that is going deeper into Electro-Dermal screening. Great speaker if you happen to get an opportunity to seize him at an event.
