William F. Roemer Jr.

The stakes — Las Vegas. The avid gamers — Bonanno vs. Accardo. William F. Roemer, Jr., is the popular FBI agent whose relentless campaign opposed to the mob outshone even that of mythical crime buster Eliot Ness. purely Roemer — the most-decorated hero within the FBI and the most-wanted guy at the underworld's hit record — may well inform the electrifying inside of tale of the no-holds-barred duel that pitted the reigning dons of latest York and Chicago opposed to one another for the main priceless jewel within the prepared crime crown — Vegas. Featuring the struggling with godfathers themselves — Joe Bonanno and Tony "Joe Batters" Accardo — plus a rogues gallery of War of the Godfathers excessive rollers, specialist hitters, capos, underbosses, and soldiers, listed below are the strategies, the setups, the takedowns, and the double crosses within the actual phrases of the boys who minimize the bargains — and the throats — within the biggest, deadliest strength play within the historical past of the mob and the annals of precise crime. "Exciting examining . . . Roemer's adventure has left him with a few interesting tales, and this is often one among them." — The Kirkus experiences

i think undesirable giving this ebook 4 stars, simply because I comprehend it performs quickly and free with the facts. yet on the time I learn it, i did not be aware of that yet, and that i totally friggin' enjoyed it. It even encouraged a novella I wrote. what is more, it truly is simply regularly a blast to read. yet because it turns out, it makes loads hypothesis that a few assets even name it a "novel." that isn't in any respect actual -- it does not learn like a novel, and it's too with reference to truth to be awarded as such. however it is way adequate from fact that it isn't really a "good" real crime publication -- all the way down to the author, who figures at numerous details within the story, giving himself a faux name. Huh? it is a bizarre document, yet man. I enjoyed examining it. The nugget of War of the Godfathers fact to this tale is a really attention-grabbing one -- the test via the Bonanno family members (who were humiliated via Donnie Brasco) to take regulate of Las Vegas from the Chicago Outfit, which have War of the Godfathers been granted keep an eye on of Vegas in go back for the NYC families' keep watch over of Atlantic City. AC grew to become out to not be the gold mine prepared crime proposal it should be, and the Bonnannos felt like they might been screwed. That began a brief, abortive mob conflict utilizing regulate of the unions in addition to mob murders even if Vegas is meant to be an "open city" -- a spot the place there isn't any mob violence. How a lot of it really War of the Godfathers is true? not really much, or at the very least now not a lot could be documented, or HAS been documented. yet is it interesting? Oh War of the Godfathers mas oui. Roemer is the fellow in terms of the Chicago Outfit, and the theory during this publication is straightforward to forgive simply War of the Godfathers because it War of the Godfathers is eminently believable, to the purpose of not only being convincing, yet attainable or probable. Did it ensue this way? Is it precise crime? not really really. Where it matches into the general historical past of geared up crime, and specifically the Chicago Outfit and its keep watch over of Las Vegas, and the Bonanno relatives and their stream to Tucson, i do not understand and i am unsure Roemer or his writer knew. yet it really is worth a read, and intensely enjoyable.
